

MILITIA HEMMED IN  
BY OHIO STRIKERS.REINFORCEMENTS SENT TO  
THEIR RESCUE.

Illinois Legislator Under Indictment  
For Murder it Being Charged That  
He Led the Mob Which Wrought  
Such Destruction—Indiana Strikers  
Under Arrest.

WHEELING, W. V. June 8.—A company  
of militia is surrounded by miners  
at Canal Dover, and reinforcements  
have been sent there.

CANAL DOVER, Ohio, June 8.—When  
Company M, Seventeenth Infantry,  
Capt. O. C. Powellson, went aboard a  
special Cleveland & Marietta train  
here last night en route to Cambridge  
3,000 people, mostly rolling mill men,  
stopped the train. Several attempts  
were made to start, when the air  
brakes were disabled. It is rumored  
the track is torn up at Odert's coal  
mine, south of here. Capt. Powellson  
asked for more troops. His command  
is here awaiting help. Trouble is  
feared before reinforcements can get  
here.

COLUMBUS, Ohio, June 8.—With the  
Eight, Fourteenth and Seventeenth  
regiments, Battery H of Columbus and  
Battery G of Zanesville in the eastern  
Ohio mining region. Sheriff Scott of  
Belmont county wired for more troops.  
The governor advised the sheriff that  
the troops would be sent as soon as  
possible.

BRIDGEPORT, Ohio, June 8.—Train-  
men report that Baltimore & Ohio  
bridges have been burned near Barnes-  
ville. Troops are expected here mo-  
mentarily, and the coal crews have  
been ordered to report at noon. Min-  
ers are preparing to resist any effort  
to put coal trains through on the  
Cleveland, Loraine & Wheeling.

United States marshals are here to  
execute Judge Taft's order restraining  
the strikers from any interference  
with the trains. Coal trains will start  
on the Cleveland, Loraine & Wheeling  
railroad as soon as the Fourteenth  
regiment arrives. The miners threaten  
to resist the soldiers and blow up the  
railroad bridges and tunnels. There  
are 200 rifles among the Wheeling  
creek miners and 100 at Lauralton.  
Seven railroads are blocked and blood-  
shed is feared.

## BOUND TO STOP THE COAL SUPPLY.

Strikers at Danville Refuse to Let Any  
Work Be Done—Factories Close.

DANVILLE, Ill., June 8.—The local  
leaders of the mining strike have been  
in favor of allowing the small coal  
banks to be operated so as to furnish  
coal to the city. But at a mass meet-  
ing yesterday morning the strikers  
declared no coal should be mined.

Springfield coal miners ordered the  
miners here who have been working  
on the co-operative plan to stop min-  
ing, and the mine was closed. All the  
surrounding towns, Lincoln, Kenney,  
Latham, Warrensburg, etc., have  
been supplied with coal from here by  
wagons for eight or ten days.

BLOOMINGTON, Ill., June 8.—Owing  
to scarcity of coal the Alton shops are  
running on greatly reduced time and  
the Alton company has pulled off a  
number of freight trains. Some of  
the manufacturing concerns have got  
to the end of their supply and the re-  
sult is the enforced idleness of a large  
number of mechanics and others.

## Mob Marching on Manown Mines.

MONONGAHELA CITY, Pa., June 8.—  
The situation at Manown, where the  
Youghiogheny Gas Coal company in-  
troduced negro laborers, protected by  
deputies, is lively. At 8 o'clock last  
night it was rumored a crowd of 3,000  
or 4,000 miners would march on  
Manown at 10 o'clock, and at that  
hour martial music was heard, shots  
were fired and signal lights began  
flashing from both hills. Everything  
was excitement at the mines, and the  
deputies at once set about barricading  
themselves in anticipation of war. The  
only telegraph office there is in the  
company's building and Superintendent  
Young has established a press  
censorship.

## Cleveland Faces a Water Famine.

CLEVELAND, Ohio, June 8.—The coal  
famine in this city has assumed alarm-  
ing proportions and several of the big  
business plants have suspended opera-  
tions for want of fuel. Supt. Kings-  
ley of the waterworks announces if  
hot weather prevails the coal on hand  
will only last a week. The Cleveland  
industries are closing down gradually.

## DID A LEGISLATOR LEAD THE MOB

Illinois State Officer Indicted For Murder  
In Peoria County

PEORIA, Ill., June 8.—As it became  
generally known that John L. Geher,  
once a member of the legislature from  
Peoria county, was the leader of  
Wednesday's mob in its attack upon  
and destruction of Little Bros.' coal  
mine excitement over the affair  
both in this city and Pekin rapidly  
grew. He was indicted for murder.  
The feeling against him reached such  
a pitch that had he been arrested  
there is little doubt he would have  
been lynched. It is said he has gone  
to Nebraska. More trouble is ex-  
pected.

The presence of the militia, in com-  
pany with Sheriffs Berry and Fred-  
erick, caused more excitement than  
anything that has occurred in these  
parts in a long time. An immense  
throng crowded the platform and  
the railroad yards surrounding the  
depot. A great majority of

them said if the officials could  
succeed in capturing John L. Ge-  
her and bring him to justice the law-  
less affair of the day before would, in  
part at least, be atoned for. While  
the two special trains were getting  
ready to start on their journey a score  
of people in carriages, express wagons  
and hacks started on the road for the  
scene of action.

By the time the soldiers reached  
Bartonville the streets of that village  
were filled with vehicles and people  
as never before. For nearly two hours  
the militia and the deputies, standing  
at ease on their guns, held a position  
in the street, apparently un-  
concerned as to their surround-  
ings, but in reality guarding every  
house, while the two sheriffs  
and their chief deputies and Ed Little  
went through the saloons and the  
dwellings looking for the men they  
wanted to make prisoners of. None  
of them were captured.

At Pekin a coroner's inquest was  
held over the body of Edward Blower,  
the dead striker, and it was decided  
by a jury that John L. Geher should  
be held for murder without bail.

Peter Little, Jr., who was hit in the  
left breast by a bullet that had gone  
through a board and had been flat-  
tened out, is not expected to live.  
Peter Little, Sr., is not so badly  
wounded as at first reported.

In the morning the second victim of  
the riots at Little's mines expired at  
the cottage hospital. He was William  
Dickinson, a colored man, and helped  
the Littles defend their mine tower.

It was reported last evening that  
1,500 miners from La Salle and Spring  
Valley are organizing to come here  
and help the Bartonville strikers shut  
down the mines in this vicinity. Tazewell  
county sent an order to Chicago  
for 100 rifles, but could get only twenty-  
nine.

## TROOPS GO TO THE SHERIFF'S AID.

Gov. Altgeld Sends Militia Companies to  
Tazewell County.

SPRINGFIELD, Ill., June 8.—Gov. Al-  
tgeld received from the sheriff of Taze-  
well county yesterday a message ask-  
ing for aid and the governor ordered  
out Company G, Fifth infantry, at  
Lincoln, commanded by Capt. Eugene  
Steer, and Company F, Third infantry,  
Capt. W. H. Wilson, to report to Major  
Cabans of the Fifth infantry at Pekin.  
On request of Sheriff Berry of Peoria  
the governor also ordered Company L  
of that city to report to the sheriff for  
the purpose of assisting the Tazewell  
county authorities in suppressing the riot.

Sheriff Dowell of Williamson county  
telegraphed the governor that he  
would finish serving the warrants in  
his hands by noon and requested that  
the troops be withdrawn from Carter-  
ville. Col. Smith telegraphed to Gen.  
Orendorff that he would break camp  
at 5 p. m. Col. Bayle wired that he  
would be home at night.

At 9:05 Gov. Altgeld received from  
Sheriff L. M. Donley of Fulton county  
the following:

"Send me to Canton twenty-five  
stand of arms, 1,000 rounds of ammu-  
nition."

The request was complied with. The  
governor says: "We have had so  
many calls for arms and ammunition  
our supply has become exhausted, and  
we have not enough to supply the de-  
mand. We have arranged for and are  
receiving 150 rifles from Washington.  
We will probably purchase more."

CARTERVILLE, Ill., June 8.—The  
troops have been recalled on the re-  
quest of Sheriff Powell. At no time  
have the miners destroyed or at-  
tempted to destroy any property or  
threatened any lives. Indignation is  
expressed on all sides that the troops  
were sent here.

SPRING VALLEY, Ill., June 8.—The  
miners at Ladd are incensed over a  
self-constituted committee that went  
to Princeton and solicited alms for  
destitute families of Ladd. They had  
no authority from the union to do  
this, and they did not distribute the  
money among needy families. Trouble  
is brewing on account of this.

James W. Murray, vice-president of  
the Illinois Miners' Union, returned  
yesterday from Kewanee, where he  
tried to get the men out. Mr. Murray  
says if those men go to work again  
before a settlement is reached it will  
be impossible to prevent the organiza-  
tion of an army to move upon them.

## HELD FOR STOPPING THE ENGINEER.

Five Men Arrested at Brazil and War-  
rants Out for Twenty-Five.

BRAZIL, Ind., June 8.—Robert Rank-  
in, Charles Poor, James Boothe,  
Charles Slack and William Slack the  
oldest not yet 22, were arrested by  
Marshal Louderback last night  
charged with being implicated in the  
killing of Engineer William Barr on  
the Vandalia. The boys all reside at  
Harmony. Poor turned state's evi-  
dence and gave the crowd away,  
naming over twenty-five persons who  
were throwing stones when Barr was  
killed. Last night 300 strikers tore  
the siding off six cars of coal which  
they captured south of here on the  
Evansville & Terre Haute railroad  
yesterday morning and dumped the  
coal on the tracks. The rumor that the  
Anderson militia has been ordered to  
this place has created much excite-  
ment among the strikers.

SULLIVAN, Ind., June 8.—No violence  
occurred either at Shelburn or Farmers-  
burg yesterday, although a coal train  
of thirty cars passed up. The section  
of the road between the two points  
was patrolled by the militia to prevent  
a repetition of the surprise of Tues-  
day. There will be a more earnest  
campaign made by the civil authori-  
ties against the ringleaders.

MINERS SHOT DOWN  
AT CRIPPLE CREEK.DECLARATION OF PEACE  
DOESN'T PREVENT BATTLE.

Skirmish Between Deputies and Strik-  
ers This Morning—Officers Say if  
Governor Waite Refuses to Support  
Them in Enforcing the Law they  
Will Assume the Power.

CRIPPLE CREEK, June 8.—There was  
a skirmish this morning which re-  
sulted in the death of two or three  
miners. The deputies declare they  
will make arrests whether they get  
support from Governor Waite or not.

DENVER, Colo., June 8.—Unless some  
excited posse of deputies or a band of  
reckless miners persists in making  
trouble, the crisis at Cripple Creek is  
over. The most authentic facts indi-  
cate that the miners are willing to lay  
down their arms and come into the  
camps of the National guards. There  
was a skirmish yesterday morning be-  
tween miners and deputies. One  
miner was killed and a couple of depu-  
ties hurt. A guerrilla warfare was  
carried on all day.

## NEW GRAIN RATES FIXED.

Southwestern Traffic Association Takes  
Decisive Action at St. Louis.

ST. LOUIS, Mo., June 8.—The South-  
western Traffic association gave final  
consideration yesterday to the ques-  
tion of rates on grain and grain prod-  
ucts and the recommitment of these  
commodities at Missouri river  
points, establishing the follow-  
ing rates to Texas points: Flour,  
40 to 45 cents per 100 pounds;  
wheat, 35 to 40 cents per 100 pounds;  
corn and oats, 33 to 27 cents per 100  
pounds. It was further provided that  
the rate of 40 cents on flour, of 35 cents  
on wheat and 33 on corn and oats may  
be applied from Denver and inter-  
mediate points on direct lines in Colo-  
rado and Kansas to points in Texas on  
the Fort Worth & Denver City, Chicago,  
Rock Island and Texas & Gulf,  
Colorado & Santa Fe main line, Fort  
Worth & North.

## PLATTE RIVER RISING.

No Great Damage So Far but There Is  
Great Apprehension.

OMAHA, Neb., June 8.—The Platte  
river is rapidly rising, but no great  
damage has yet been done, though  
there is much apprehension. The  
wall of water five feet in height  
reported last night to be approaching  
Kearney has not yet materialized,  
though the river has risen several  
inches. The flood was re-  
ported sixty miles to the  
north and should have appeared  
at Kearney this morning. As the  
river is much broader for miles  
south, it is believed that it has gradu-  
ally extended itself. The large canal  
constructed at an immense cost by the  
Kearney cotton mill and kindred in-  
dustries it is thought will not stand a  
much greater rise.

## Round Pond Railway War.

WICHITA, Kan., June 8.—On the re-  
ceipt of a telegram from the Rock  
Island officials, the sheriff has sent a  
number of armed men on a special  
from here to Round Pond, O. T., where  
a railroad war is in progress. All the  
men were selected for bravery and  
were heavily armed with Winchester  
rifles, under command of James Barnes,  
ex-chief of police and one of the best  
known and nerviest officers in the  
west. A fight is surely expected to-  
day.

## Say Loss Is \$5,000,000.

TACOMA, Wash., June 8.—Railroad  
men and others are beginning to es-  
timate the damage done by the floods  
throughout the northwest. A number  
of conservative men have placed the  
amount in the neighborhood of \$5,000,-  
000. Railway men here think it will  
take the Great Northern and Canadian  
Pacific roads a month to repair their  
tracks and the Northern Pacific nearly  
as long.

## Trouble Among St. Joseph Catholics.

ST. JOSEPH, Mo., June 8.—Trouble  
has broken out in the Polish Catholic  
church here and half a dozen of the  
members have been arrested. A few  
weeks ago Father Kyrznowski re-  
signed and Bishop Burke appointed a  
new priest. Then some of the mem-  
bers accused the others of making life  
unbearable for their first pastor and  
the result was a battle with bricks.

## Kaslo, B. C., Washed Away.

NORTHPORT, Wash., June 8.—A mes-  
senger arrived here to-day from Nel-  
son, with the report that Kaslo, B. C.,  
was swept almost entirely out of exis-  
tence Sunday by a flood and wind.

## Extend Navigation to Minneapolis.

WASHINGTON, June 8.—The secre-  
tary of war has sent to the President  
an estimate of the cost of improvement  
necessary to extend navigation on the  
Mississippi river from St. Paul to the  
four mills at Minneapolis, which  
places the cost of this improvement at  
\$2,205,159. Four locks and dams  
would be necessary.

## Double Tragedy in Hoboken.

NEW YORK, June 8.—Eli Buret, a  
hardware dealer in West Hoboken,  
and Eliza, his wife, were last night  
found unconscious on the Paterson  
plank road. Each was suffering from  
a pistol wound in the head and a re-  
volver lay near by. It is supposed to  
be a case of attempted murder and  
suicide.

SCIENTISTS MEET  
IN BELOIT TODAY.WISCONSIN ACADEMY OF ARTS  
AND LETTERS.

Among the Subjects Discussed Are  
"The Recent Epidemic of Typhoid  
Fever in Ashland Wis." and "The  
Ancient Ice Invasion—Expeditions  
Into the Country."

BELOIT, June 8.—The Wisconsin  
Academy of Sciences, Arts and Let-  
ters is in session here today. The ex-  
ercises opened with an address by  
President E. D. Eaton of Beloit col-  
lege. Among those who presented  
papers were W. W. Daniells, on "The  
Recent Epidemic of Typhoid Fever in  
Ashland, Wis." "The Ancient Ice  
Invasions" and several other papers  
will be read. Several expeditions will  
be made into the surrounding country  
by those interested in the various de-  
partments of science, and special dis-  
cussions are arranged with reference  
to the proposed natural history survey  
of Wisconsin. Professor C. R. Van  
Hise is the president of the academy  
and Professor C. R. Barnes the secre-  
tary.

## SIX YEARS FOR HAUGHEY.

Indianapolis Bank Wrecker Receives the  
Sentence of the Court.

INDIANAPOLIS, Ind., June 8.—Theodore P. Haughey, president of the de-  
funct Indianapolis National bank, was  
yesterday sentenced to six years in the  
penitentiary for his part in the  
wrecking of that institution. Mr.  
Haughey appeared in court with his  
attorneys at 9 o'clock to receive his  
sentence. Judge Baker expressed deep  
regret in pronouncing sentence, saying it  
was an unpleasant duty to sentence a  
man that had so long been respected  
for his uprightness and integrity. After  
pronouncing sentence Judge Baker  
shook Mr. Haughey's hand. Mr.  
Haughey is 63 years of age. Marshal  
Hawkins started with his prisoner for  
Michigan City.

## DENVER BANK CLOSED.

German National, One of the Oldest in  
the City, Falls to Open Its Doors.

DENVER, Colo., June 8.—The Ger-  
man National bank did not open its  
doors yesterday. Cashier Kuhnmler  
says that the institution is compelled  
to go out of business. A statement  
will be made later in the day. The  
German National is one of the oldest  
banks in the city.

## For a New Constitution.

HONOLULU, May 31, via San Fran-  
cisco, June 8.—The constitutional con-  
vention was successfully inaugu-  
rated here yesterday. All foreign  
and diplomatic representatives were  
present, except the English corps.  
President Dole delivered an opening  
address and several other speakers  
were heard. The indications are that  
the convention will last two weeks.  
The executive council has been months  
in preparing a draft of the new con-  
stitution to be submitted to the con-  
vention. The council's report will  
probably be made before June 12.

## Decide to Fight It Out.

PITTSBURG, Pa., June 8.—The com-  
mittee of ten coal operators appointed  
to consider the matter of settling the  
strike on a basis of 65 cents a ton or  
less met yesterday and by a vote of six  
to four decided not to settle. The op-  
erators who want a settlement are  
skirmishing to get a good attendance  
at a meeting of operators to-day, when  
it is expected yesterday's action will  
be overridden and a committee sent to  
the conference.

## Threaten to Blow Up Mines.

BIRMINGHAM, Ala., June 8.—Five  
hundred miners are massed and  
threaten to blow up the mines at Blue  
Creek. One hundred and fifty troops  
leave Camp Fory on a special train at  
once.

league had remarkably uniform suc-  
cess against their western visitors yester-

place and New York passed St. Louis.

## COXEY BOATS UPSET.

Several of the Wealers are Drowned at  
Brighton, Colo.

BRIGHTON, Colo., June 8.—Seven  
boats of the Coxe fleet which left  
Denver were upset yesterday and sev-  
eral lives were lost. One body has  
been recovered.

CAIRO, Ill., June 8.—Kelly has de-  
stroyed all his boats and can not now  
go down the Mississippi in them. He  
persists in saying he will yet force his  
way into Cairo.

## TRUST WINS; FARMERS LOSE.

Contract Held Up to the Light By Carey  
of Wyoming

WASHINGTON, June 8.—In the senate  
yesterday Mr. Carey (rep., Wyo.) took  
the floor and delivered a speech on  
the general subject of the tariff when  
the bill was taken up. He made a  
comparison of the Wilson bill and the  
senate bill, and said the house did not  
make conspicuous exceptions by plac-  
ing all the agricultural products on  
the free list while protecting the  
trusts and combines, which was so ap-  
parent in the senate bill. Mr. Carey  
defended the present law.

Mr. Harris, pursuant to an agree-  
ment reached after consultation with  
some of the republican leaders, sprang  
a surprise on many of the senators in  
the shape of a proposition to proceed  
with schedules U (agricultural prod-  
ucts), H (spirits, wines and other  
beverages), I (cottons), and J (flax,  
hemp and jute), under the five-minute  
rule. This would have carried the  
senate to schedule K (wool and wool-  
ens), under fast marching orders.  
While the matter was being informally  
discussed Mr. Quay (rep., Pa.) sauntered  
into the chamber. He asked what it  
all meant. On being told that it was  
a request for unanimous consent to  
limit debate he said emphatically: "I  
object." Having thus abruptly  
smashed the proposed truce he walked  
into the marble room.

Then the senate proceeded with de-  
bate on the bill until 5:30 p. m., when  
a vote was had on the finance com-  
mittee amendment fixing the rate on  
oatmeal at 15 per cent and excluding  
it from the reciprocity provisions of  
the paragraphs. It was adopted and  
Mr. Allison moved to strike out the  
reciprocity provisions of the para-  
graphs. It was defeated by a strict  
party vote, 24 to 23.

## TO EXTINGUISH STANFORD CLAIM.

Senator Hoar's Resolution to Close the  
Matter—Blackburn Makes Reply.

WASHINGTON, June 8.—The action of  
the attorney-general in claiming \$15,-  
000,000 from the estate of Leland Stan-  
ford occupied the senate during the  
morning hour yesterday. Senator  
Hoar said the government ought at  
once to decide the question of exting-  
uishing and putting this claim at  
rest. He recited the benefactions un-  
der the will of Gov. Stanford, and  
added: "If the government had a  
claim of \$15,000,000, that was only 20  
cents apiece for the inhabitants of the  
United States, to whom Mr. Stanford  
had consecrated his large estate, and  
it ought not to embarrass the closing  
years of his widow and cripple and  
perhaps destroy the great gift he had  
made for the benefit of the poor by  
seeking to press it."

No one, Mr. Blackburn said in reply,  
felt more deeply than he the public  
spirit manifested by his late associate  
in devoting so much to educational  
purposes. But the real question was,  
did he own the estate or had he sought  
to divert to this high purpose an  
estate that belonged to the United  
States? If the claim against Mr.  
Stanford's estate was relinquished and  
set at rest the claims against Hopkins,  
Crocker and Huntington must be re-  
leased also.

Mr. Hoar insisted the resolution was  
one of pure inquiry and replied to Mr.  
Voorhees: "This is a proceeding  
under a California statute on the  
ground of stockholders' liability. After  
the first and second mortgages fall  
due, unless satisfied, the stockholders  
become individually liable." Mr.  
Voorhees paid a tribute to Mr. Stan-  
ford's worth.

## State Banks Are Finally Dead.

WASHINGTON, June 8.—The banking  
authorities in congress regard the de-  
feat of the state bank measure as sig-  
nificant of the future of banking and  
currency in the United States. It is  
said to establish as a finality that  
state banks and state bank currency  
will never be revived and that if any  
change is made from the present sys-  
tem it will be by a nationalized cur-  
rency. Chairman Springer will call  
together the house banking and cur-  
rency committee at an early day to  
consider the next step. The meetings  
of the committee had been suspended  
until the state bank issue was settled.  
Mr. Springer is disposed, however, to  
push the subject until the state bank  
champions of the south appreciate the  
significance of the vote.

## W. W. PHELPS IS DYING.

Ex-Minister to Berlin Suffering From  
General Collapse.

NEW YORK, June 8.—There appears  
to be no longer any doubt that  
William Walter Phelps, ex-minister to  
Germany, is in a startling critical con-  
dition. The belief is expressed that  
his death may be looked for at any  
moment. The gravity of his con-  
dition did not become known  
until yesterday. Although it is  
generally believed that Mr. Phelps  
is suffering from consumption, the  
present difficulty is understood to be  
a complication that baffles the physi-  
cians. He inherited pulmonary weak-  
ness that has given him much trouble  
and been the source of deep solicitude  
among friends whenever he was re-  
ported ill.

## Crispi to Form a New Cabinet.

ROME, June 8.—It is reported that  
Sig. Crispi will form a reconciliation  
cabinet, to include Marguis di Rudini  
and Sig. Zanardelli.

## Gold Reserve Goes Lower.

WASHINGTON, June 8.—The cash bal-  
ance in the treasury at the close of  
business yesterday was \$116,708,465,  
of which \$73,962,305 was gold reserve.

BELOIT FIELD DAY

Five Mile Bicycle Race Finished in  
Very Fast Time—College Record  
Broken on Standing High Jump and  
Half Mile Dash—Much Enthusiasm  
Shown.

BELOIT, June 8.—The college field  
day exercises took place to-day. Sev-  
eral records have been broken, among  
them the five-mile bicycle run which  
was made by D. L. Chilcote in 13:46.  
This is the best record for that dis-  
tance ever made by an amateur. The  
half-mile running record was broken  
by T. F. Briggs, his time being 2:09½.  
A standing high jump record of five  
feet, was made by H. F. Smith, this  
being the best college record.

## MANY DRIVEN OUT BY FLOODS

Vancouver Dispatches Show Fearful Suf-  
fering on the Fraser River

VANCOUVER, B. C., June 8.—The  
Fraser river is still rising at West-  
minster. During the twenty-four  
hours ending this morning the flood  
gained one inch. The worst has  
probably been experienced, for reports  
state that the river is rapidly receding.  
At Lytton it was said that the river  
fell twenty-seven inches yesterday.  
News has been received here of an ap-  
palling landslide which occurred in  
the vicinity of Ashcroft on Saturday  
last. A tract of 100 acres of land was  
carried into the river. A cloudburst  
is said to have been the immediate  
cause of the disaster.

All the Canadian Pacific passengers  
who left for the east Sunday and since  
then returned to this city last night,  
having found it impossible to get  
through the mountains. There  
are a dozen breaks of a  
serious nature along the line and the  
track probably can not be opened for  
a week. A more serious interruption  
than previously reported is due to a  
cloudburst in the vicinity of Lytton.  
The burst swept the railroad for nine  
miles from the sawmill at Lytton,  
where the approaches to the  
government suspension bridge on  
the old Cariboo road were car-  
ried away. The waters also swept  
away the iron bridge at Ashcroft and  
the Canadian Pacific railroad bridge  
near Spencer's station. The water  
tore down the mountain gorges with  
terrible velocity, and sent the river  
leaping over its banks in a boiling and  
seething current.

This great volume of water is yet to  
be felt in the lower Fraser valley,  
which it will not reach for another  
day. As further details of the cloudburst  
are received the earlier reports  
of receding waters at Lytton and  
other points of the river are discred-  
ited. However, it is not believed the  
lower river will rise much higher.

Men who returned last night from  
upper river points bring sad stories of  
death, devastation and desolation.  
Settlers may be seen at every station  
floating on huge rafts made out of the  
wrecks of farm buildings, on which  
they have their families and their cat-  
tle. The government steamers are  
rescuing these as rapidly as possible.

One of these rafts was relieved of its  
burden by the steamer Gladys to-day.  
On the raft were a man and wife and  
two children, one of them an infant,<

## POLITICS THE TOPICS AROUND THE COUNTY

### CANDIDATES MAKING THEMSELVES MORE "SOLID."

George R. Barker Home From the East—Choir May Camp at Clear Lake—Center Raises Funds For a Fourth of July Celebration—Low Prices on Tobacco.

MILTON, June 8.—Politics furnishes the chief subject of comment these days. Ex-Mayor Rowe, of Janesville, was interviewing our citizens Wednesday in the interest of his candidacy for register of deeds. J. E. Gleason, of LaPrairie, candidate for sheriff was also in town Wednesday. W. T. Vankirk and wife were here Wednesday. He had no political fish to fry however. H. Jackson sold his tobacco recently to Neil at five and five and one-half cents for wrappers and binders, cased. This is the best sale of the new crop made here to date, but there is no profit for the grower at that price. The question, whether "Man is Superior to Woman," has never been fully settled. But the joint oratorical contest between the ladies and gentlemen of the M. E. church here, next Tuesday evening, promises to settle one point at least. Both sides are anxious to win, and as this is the last contest, a large crowd is expected. The Y. M. C. A. quartette, of Janesville, will furnish the music, and the Ladies' Aid Society will serve ice cream and "sliced sweetness" from 5 to 8 o'clock. Admission to contest, which begins at 8 o'clock, is only ten cents. The officers-elect of the King's Daughters are: President, Mrs. G. R. Boss; vice president, Miss Lizzie Jackson; secretary, Miss Bertha Fross; treasurer, Mrs. W. W. Clarke. Captain Knulans, of Whitewater, called on his old comrade, W. P. Clarke, Tuesday. To the public who have so generously contributed to the success of the B. L. & O. festival; to A. J. Earling, general manager of the C. M. & St. P. for courtesies extended; to the press for the use of its columns, and to all who have aided by word or deed the King's Daughters of Milton, extend most grateful thanks. Mr. and Mrs. Clem W. Crumb celebrated their wedding anniversary and Mrs. Crumb's birthday, Tuesday by an informal gathering of a few relatives and friends. It was a pleasant occasion for all concerned. Mr. and Mrs. E. B. Saunders, who have been in Rhode Island for some months, where Mrs. S. was engaged in evangelistic work, returned Wednesday evening. Mesdames P. M. Green and H. G. Maxson represented Io. Rebeccah Lodge at Green Bay this week. The road commissioner is building a good substantial board and plank sidewalk on College street, from the Place corner to the west end of the college land. A few of our citizens contributed to secure this needed improvement so as to reduce the expense to the town. G. W. Lamphere and wife, who have been visiting here some weeks, returned to their home at Smythe, S. D. Wednesday. Mrs. Evelyn Clarke of Nile, N. Y., who has been teaching in Kansas during the past year, is visiting at Albert Clarke's. There was a light frost here Wednesday morning but not enough to do much damage. B. F. Hudson caught a twelve pound catfish at Fulton on Wednesday.

Reception in Footville.

FOOTVILLE, June 8.—There was a

grand reception given at the home of Mr. and Mrs. Sylvanus Wallihan on Friday evening in honor of Professor B. W. Edwards of Manchester, England. During the evening Mr. Edwards was heard in several solos with Mrs. Nettie Cory accompanist. The manner in which the solos were rendered showed rare proficiency. Mr. Edwards will spend the summer here he having engaged rooms in the Ogden block. Mrs. Cory will give both vocal and instrumental lessons at her home at the corner of Main and Church streets, during the summer each day during the week, Saturday and Sunday excepted.

### FOURTH OF JULY IN CENT R

Lively Celebration Assured, a Liberal Subscription Being Raised by Town Folks

CENTER, July 8.—The people of this place met Saturday evening to make arrangements for July 4. The financial committee had thoroughly canvassed the town and reported a sufficient amount raised for a grand celebration. They proceeded at once to appoint committees which are now at work preparing for the grandest celebration that was ever held in southern Wisconsin. The creamery at this place receives about twelve thousand pounds of milk daily. C. C. Fisher is laid up with several broken ribs caused by falling on a wagon box. Mrs. A. H. Nott of Janesville, and Mrs. Emma Tolson of Arcadia, Wis., were called here the first of the week by the illness of their mother, Mrs. D. N. Howell, who at the present writing is reported much better. Eddie Davis' injuries received from his fall while playing in the barn were not as bad as first thought although he has several very bad gashes about the head and face. Mrs. William Dunn was summoned to Reedsburg on Friday to care for a sick sister. Miss Rena Peterson closed her spring term of school in district No. 2 Friday. The broad smile that William Apfel wears, is due to the arrival of a bouncing baby boy. Otto Long has just completed a new barn, which was a long felt want. Fannie Howe returned to her home in Footville Wednesday, after a few days' stay in this place. Mr. and Mrs. Webb Richards Sundayed at their daughter's Mrs. Frank Ashby's. Miss Mattie Snyder spent a part of last week among Evansville friends. The church of this place gave a prize to the scholar who raised the most money for foreign missionary, Alta Goldsmith being the first and May Goodacre second. Mr. and Mrs. Elmer Morrison rejoice over the arrival of a little girl. Mr. and Mrs. John Snyder received a telegram from Chicago Monday announcing the dangerous illness of their daughter May. Miss Mary Whitmore visited relatives in Janesville last week. Mrs. James Parmley is the guest of Mrs. Esther Parmley. Frank Lowery has a new bicycle and expects to make semi weekly trips to Footville. Henry Richards has several acres of tobacco set. The frost on Friday night did considerable damage to the growing vegetation. Jake Milspaugh of Evansville made a flying trip through Center Wednesday. Mr. and Mrs. J. Pepper are entertaining friends from abroad. R. J. Nott and wife of the Bower City called on old friends at this place Thursday. Silverthorn & Brown were in town Thursday. E. L. Parmley, of Evansville, was in town Wednesday insuring the lives of some of our worthy citizens. John Goldsmith has just moved into his new mill and is now prepared to do custom work. We are sorry we have a young man in the town so cruel on pedestrians when they ask for a meal as to make them tarry by the way and hoe potatoes until they are almost famished.

### G. R. BARKER HOME FROM BOSTON

His Brother Remains in the East—Deacon Jonathan Roberts Dead.

BARKERS CORNERS, June 8.—G. R. Barker has returned from his trip. Jule Barker remained with his sister in Boston. Mesdames Bear and Glenn were up from Janesville. The next society meets with Mrs. Wm. Hudson in two weeks. Charlie Davis of Janesville, has moved back on his farm. ## GERMS VERY FOND OF SULPHUR SMOKE

### LOCAL PHYSICIANS ASK FOR BETTER DISINFECTION.

Fumigation Practically Worthless—Steam Declared to be the Only Thing That is Sure to Conquer the Seeds of Disease—Box at the Pest House.

A change in local sanitary precautions is urged by physicians. "Now that it is acknowledged by all leading scientists that fumigation by sulphur will not kill the germs of contagious diseases, such as diphtheria, scarlatina, small pox and cholera," said one prominent doctor, "it is about time it was abandoned by our city health department. Now it is the only means at our command. The rooms occupied by a patient can be washed with a disinfecting solution, the paper taken off, new paper and paint put on, and reused again with comparative safety. Not so with the carpets, hangings, mattresses and stuffed furniture. Nothing that can be applied to them will be of any use. Boiling will kill all germs, but a large amount of the material usually found in rooms cannot be so treated. They are infected before the physician's arrival. Everything might be burned, but only the few can afford this, and it is seldom done. They stand and hang as a constant menace to everyone who comes in contact with them."

"I would suggest the building of a steel box near some stationary boiler, and subject the infected furniture and hangings to heated steam at a temperature of from 330 to 250 degrees; which kills all germs."

"This plan is adopted in seaport towns and in many large cities with satisfaction. For the poor it is done gratis; for those able to pay the cost of disinfection is charged. Some day we will pay dearly in valuable lives for our slipshod methods. This might be arranged near our new pest house."

### SHOPPIER'S WEEKLY GRIST.

Tarrant—Eddy Marriage—Death of Mrs. O. P. Graves—Frost Hurts Potatoes.

### PROTECTION TO HOME MERCHANTS

Janesville Man Pleads for a Law Similar to That Passed in Ohio.

EDITOR GAZETTE:—If the Wisconsin legislature would pass a law similar to the one recently passed in Ohio, it would do more to protect home merchants than it has ever done. The Ohio law compels merchants who advertise "bankrupt," "fire" and other sales of like character to file full particulars of the alleged bankruptcy or fire with the secretary of state, deposit \$500 for security for fair dealing and take out a \$25 license before proceeding with the sale. This is a good law, and one that will protect honest merchants. There is no excuse whatever for permitting foreign fakes to come into our city and sell inferior goods at higher prices than our home merchants ask; then pack their trunks, go to other fields and leave the home merchant to pay the taxes in support of the county and municipal government.

## SCOTTS WILL HAVE BIG SUMMER GAMES

### PLANS MADE AT THE QUARTERLY MEETING.

Details Are Left to a Committee Consisting of Alex Galbraith, Colin C. McLean, John Harvey, James Scott E. D. McGowan, W. R. Proudfoot and William Paul.

Scotts plan a big time this summer. Their annual games will be held in August and will be made exceptionally fine. The details of the affair were left in the hands of the committee of arrangements, consisting of Alex Galbraith, C. C. McLean, John Harvey, James Scott, E. D. McGowan, W. R. Proudfoot and William Paul. It will be the effort of the committee to make the games better than ever before if such a thing be possible.

It was also voted to donate \$30 to the Young Men's Christian Association.

Last evening a social was given at the rooms of the society. The attendance was large and the programme though brief and wholly informal, was nevertheless greatly enjoyed. There was music on the organ by Miss Mae McGregor; solo "My Dearest Heart" by William Garbutt; clever recitations by little Daisy and Belle McLean; recitation, "To a Mountain Daisy" by Alex. Graham Galbraith; songs, "Rathesay Bay," and "Loch Lomond," by Miss Maggie Selkirk; readings by Miss Lou Fenton; song, "The Anchor's Weighed," by William Garbutt, and a description by William Paul of sights in Scotland. At 10:30 the floor was cleared and there was dancing to the music of Smith's orchestra.

### MARZLUFF FINDS NO DEMOCRATS

They are Scarcer in Iowa Than Hen's Teeth, He Says.

F. M. Marzluff, of the F. M. Marzluff & Co. shoe factory, returned from a business trip in Iowa, last evening, and this morning he went down to Woodstock to attend to some company business intending to return this evening.

"Talk about fifteen thousand majority for governor in Oregon," exclaimed the good-natured shoe man. "You just wait till Iowa votes, and then talk about majorities. Even old Pennsylvania won't be in it. You can't find a democrat in the interior of Iowa. It astonishes me."

### CANADA THISTLES IN THE CITY.

Weed Commissioner Should Visit the Five Points As Soon as Possible.

A nuisance—a large bed of Canada thistles—on a vacant lot between the building of the Transfer & Implement Co. and the Janesville Hay Tool Co., requires personal attention of the local weed commissioner at this time to prevent future trouble. Some party has attempted to swing a scythe over the noxious weeds, but made poor work of it. The weeds should be completely destroyed before flowering. A quantity of salt spread on the patch would be more sure than mowing. It is reported that Canada thistles abound in other places in the city.

## PIANO VOTES THICK OUT IN THE COUNTY.

### OUT-OF-TOWN CONTESTANTS DO LIVELY WORK.

Time Is Growing Short and on June 30 Some Fortunate Young Lady Will Receive From The Gazette as Fine a Piano as Can Be Bought in the City.

As the end of the piano contest draws near interest grows intense. There has been surprise in the last few days over the gain made by candidates outside of the city. Milton, Afton, Clinton and Edgerton each have contestants enrolled and several townships are also represented. Throughout the county vigorous canvassing for votes is being done.

All question as to the quality of The Gazette prize has died out. The first Shaw pianos were placed on the market less than five years ago. Instantly the trade recognized their merits and put in bids for territory until at this time these instruments can be seen almost everywhere. S. O. Burnham & Co. of this city have for years been representing other first-class pianos but have been won by the construction, tone and quality of this new aspirant for honors so today they are bending all their energies in favor of the Matchless Shaw as it is termed. With no remorse of conscience they claim it is the finest piano they have ever represented.

With such a piano as a prize is it any wonder that the contest now going on is attracting universal attention? The candidates and the terms of the offer are as follows:

Ainslie, Tina  
Baker, Bessie  
Baldwin, L. M.  
Clifford, Alice M.  
Eldredge, Rose B.  
Ennis, Mary  
Frink, May  
Foster, Lahlie  
Gifford, Alice V.  
Gibbs, Maria J.  
Holt, Ellen  
Hugett, Miss Olive  
Hayward, Minnie  
Kenyon, Cora  
Kastner, Alice  
Loucks, Franc  
Nichols, Ida  
Peters, Nellie  
Pease, Bashie K.  
Randall, Carrie M.  
Wright, Ada V.

1. Any one, anywhere in any state is entitled to vote as often as they can buy a copy of The Janesville Gazette containing the coupon.

2. The lady who receives the largest number of votes will receive as good and beautiful a piano as the Shaw Piano company can make.

3. The contest will close June 30, at 9 p. m. Piano will be delivered as soon as the counting of votes is completed.

4. Any person who will bring the Gazette one new subscriber paid in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

### HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

### Excursion to Denver, Colorado.

The Chicago, Milwaukee & St. Paul railway will sell excursion tickets to Denver and return at \$27.80 on June 11 to 12, good for return on June 23, 30 and July 10. This is on account of the American Institute of Homeopathy to be held June 14 to 22. The rates are open to all first class service and quick time via Chicago, Milwaukee & St. Paul railway.

The Yellow Glow of the Horizon. Painted on the sky by the setting sun, is beautiful. Not so the yellow glow of a face tinged with bile. And oh! the unspeakable discomfort that bile in the wrong place produces. Twinges in the right side and under the right shoulder blade, nausea, vertigo, sick headache, constipation, faulty digestion. Not in an instant can the symptoms of biliousness be dispelled, but persistence in the use of Hostetter's Stomach Bilets will eradicate them, restore question and regularity of the bowels, and counteract tendencies to more aggravated complaints, which an interruption of these functions begets. Rheumatism, inactivity of the kidneys and bladder, neuralgia, and inability to sleep, are also remedied by the renal purgative and restorative of nerve force and tranquility. As an antidote to the poison of malaria, it is unfailing and prompt. A wine-glassful three times a day.

### HISTORY MADE BY LUCK.

Many Notable Events Have Occurred Because of Trivial Happenings.

Dr. Lafferty, of New Orleans, recently delivered a lecture on "Lee's Lack of Luck." The doctor told how two English snobs, at a restaurant in Paris, by their sneers drove Murat out of service as a waiter and through this accident Murat became marshal of France and king of Naples. Samples of lucky accidents were numerous in ancient and modern history and there were also many examples that went to show how many of the ancients believe in good luck or good fortune. Napoleon had lost Waterloo through the mere accident of bringing on an attack of sick headache through eating onion and lamb against the advice of his physician.

In 1866 a quarrel between Conkling and Blaine decided the presidency of the United States many years afterward, when Blaine ran against Cleveland.

Abraham Lincoln, after being a member of congress, desired to secure a clerkship in Washington, but he was defeated by Justin Butterfield. He was disappointed, but had he not been defeated he would have spent his life in obscurity instead of becoming president of the United States.

Oliver Cromwell was once on board a ship bound for America, but he was taken back by a constable, and the result was that he became one of the greatest men England ever knew.

Ulysses Grant would not have been a military man had it not been that his rival for a West Point cadetship had been found to have six toes on each foot instead of five.

The great silver mine, the "Silver King," had been discovered by the lucky accident of a prospector throwing a piece of rock at a lazy mule.

### MADE LIFE A BURDEN.

Miss G. F. CRAWFORD, of Limestone, Me., writes: "For years I suffered monthly from periodic pains which at times were so acute as to render life a burden. I began using Dr. Pierce's Favorite Prescription. I used seven bottles in as many months and derived so much benefit from it and the home treatment recommended in his Treatise on Diseases of Women, that I wish every woman throughout our land, suffering in the same way, may be induced to give your medicine and treatment a fair trial."

"Favorite Prescription" is a powerful, invigorating tonic and a soothing and strengthening nervine, purely vegetable, perfectly harmless. It regulates and promotes all the proper functions of womanhood, improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and vigor. For every "female complaint," it is the only remedy so sure that it can be guaranteed. If it doesn't cure, you have your money back.

Congressman Lemuel Eli Quigg sized up the democratic majority in congress correctly when he said it was created by and controlled by the socialistic sentiment of hostility towards everybody who seems to be a little bit prosperous.

If the business men of New York had declared in favor of the income tax they might have caused its defeat, as there is a strong element in congress which always votes in opposition to the known wishes of New York's business men.

The men who live on bread and water, as the Coxeyites at Washington are reported to be doing, rather than to go to work and earn good food, certainly have no claim on those who work when they can get it.

The assertion of Senator Mander— "I am a senator of the United States"—is respectfully commended to those of his colleagues who are constantly saying, by their actions: "I am a senator of Podunk."

Public Printer Benedict removed seven hundred republicans from the government printing office on the plea of economy. Now, he is filling their places with democrats, on the sly.

If \$65,000,000 was the danger line for the gold reserve found in the treasury when the administration issued bonds to replenish it, what is the present danger line?

Why doesn't the senate committee put Senator Hill under oath? He talks like a man who knew something and is willing to tell it if asked to do so.

There are men in the senate who believe in paraphrasing General Grant's famous "Let no guilty man escape" into "Let every guilty senator escape."

Secretary Carlisle evidently does not bother his head about congress. He is preparing for another bond issue to meet democratic deficiencies.

The man who expects war every time some loud-mouthed blatherskite talks about shedding blood is too gullible for the times.

The Kentucky style of having a killing at every dance, is still in vogue in many parts of that state.

## HERE'S WHAT THE STATE DID.

## The Scotch-Irish Congress.

DES MOINES, Iowa, June 8.—Des Moines did nothing yesterday except entertain the Scotch-Irish, who are here nearly 400 strong from all over Iowa and all over the nation. The city is profusely decorated and the carriages occupied by the visitors passed in procession between almost solid banks of flags and bunting.

## MORE MINERS JOIN THE STRIKE

Coal Diggers in West Virginia and Kentucky Lay Down Their Picks.

KENOVIA, W. Va., June 8.—W. P. Slaughter, local representative of the Pocahontas Coal company, received word from Dingess, W. Va., that its miners at that point had joined the strike. Heavy coal trains are going out, this being necessary to prevent a blockade. These trains now expect no trouble in pulling through Ohio to lake ports.

LEXINGTON, Ky., June 8.—The 300 coal miners employed in the four big coal mines at Beattyville, Lee county, have gone on a strike. They were getting full wages, but struck in sympathy with miners in other states.

FROSTBURG, Md., June 8.—Pickets patrolled at the small mining towns in the vicinity of Frostburg last night. A sentry from the Fourth regiment was attacked with a club by a man supposed to be a striker. At Eckhart, where the largest mine is situated, the strikers stoned a number of houses in which lived miners who have refused to come out.

A MAN is less apt to feel as he looks than to look as he feels. If he feels "slouchy" in his feet, his shoes having spread out to the size of an old fashioned full dress pumpkin pie, why, then he always shows it in his looks and it is "dead sure" he did not buy his shoes from us. Becker & Woodruff on the bridge.

## WYMAN DEAD TODAY WELL ON IN YEARS

ONE OF THE WEALTHIEST OF  
ROCK'S FARMERS.

Came Here in 1839 and Built the Hotel and Hall Bearing His Name in Clinton—All His Wealth Came From Savings in Early Days—End Came Suddenly.

William Wyman, of Bradford, a pioneer of 1839, died at his home in Bradford township this morning, aged eighty-four years. He leaves a wife and three children, one a resident of Nebraska, by his first wife.

Mr. Wyman, besides being an early pioneer of Rock county, was one of the most progressive and wealthiest farmers in southern Wisconsin. Born in Massachusetts in 1806, on arriving at proper age he learned the carpenter trade. Deceased coming west in an early day, he worked at his trade, and being of a saving disposition, his earnings were invested in land. He became a farmer and owned over 500 acres in one tract in Bradford. He engaged extensively in sheep raising. He did not confine himself wholly to the farm, but helped to build up the village of Clinton, he owning the large hotel and opera house in that place. He was twice married. His second wife who now survives, was married to Mr. Wyman in 1884. Mr. Wyman's death was very sudden. He was in Janesville on Wednesday, apparently well and hearty.

## DEBRIS DUMPED IN THE RIVER.

Stream Backed Up By the Piles of Brick and Plaster.

EDITOR GAZETTE: In addition to the impediments to the natural flow of Rock river by piles etc., the stream is being still further impeded in its course by every conceivable kind of debris which is being dumped into it. Not long ago the brick bats and the rubbish was emptied into the river at the east end of the bridge on the south side from the Ogden block and now the same individual is dumping the same sort of material at the same spot. Even now, the bottom of the dampage must be ten to fifteen feet into the river. At the bottom as much as ten feet can be seen at the top of the dump. This obstruction is just where the rush of water through the bridge in high water especially, should have a free and easy an outlet as possible. This open breach of the law will not affect dwellers below, but surely will injure all below the dam and this same bridge. Complaint has been made but still the dumping goes on. Will not the authority see to and put a stop to this crime against law and order.

RIVER VIEW.

DIDN'T TRY TO GET FISH.

Party of Anglers Came Back Empty Handed But Happy.

District Attorney W. G. Wheeler, Richard Valentine, H. S. Sloan, V. P. Richardson, and Dr. Joe B. Whiting went up the river yesterday afternoon in a naphtha launch. Some of the party were seen in the evening with fishing rods, but no fish were in sight. "We only went up for a little ride," said one of the party, "and didn't try to catch fish."

Mrs. Cums—That Mrs. Snooper asks everybody if her hat is on straight. Mrs. Cawker—Yes. It cost \$56.

"What did Mangle receive that medal for that he wears now?" "He has run over more people than any man in our bicycle club."

Sobbing Wife—Three years ago you swore eternal love, and— Brutal Husband—How long do you expect eternal love to last, anyway.

Doctor—Have you followed my advice in regard to eating plain food and keeping quiet at home? Patient—That's all I've been able to do since you sent in your bill.

Miss Sere—Mr. Oldbach, why don't you take some nice girl to accompany you on the ocean of life? Mr. Oldbach—I would, if I were sure the ocean would be Pacific.

Old Girl, reading in newspaper an account of a new invention—No more missing shirt-buttons! What will they invent next? Why, here's another inducement for the men not to marry!

Hobbs—Doesn't it give you a kind of humble feeling to meet a girl you used to be engaged to long ago? Nobbs—Yep. Always makes me wonder whether her taste used to be as bad as mine was.

"It's a good thing for a man to attend strictly to his own business," remarked Senator Sohno. "Perhaps it is," replied the constituent, who had been keeping tab on absentees, "but it's funny that some men never seem to realize that until they get elected to congress."

## ASYLUM GETS MANY FROM JANESVILLE.

UNUSUAL NUMBER OF INSAN-  
ITY CASES.

Nicholas Craik Taken to Mendota By His Brother on an Order From Judge Sale—Mrs. Margaret Smith's Case Examined—McCarty Questioned By a Medical Commission.

Insane people appear to abound in Rock county this summer. Nicholas Craik, residing near the cemetery, was taken to Mendota today he having been adjudged insane. A commission examined Mrs. Margaret Smith, of Beloit as to her sanity with a view of sending her to the insane asylum. Mrs. Smith has long been afflicted with brain trouble. Her husband, who died recently, was in the habit of watching and caring for her. In his will he made provisions for her care and asked that a guardian be appointed to look after her. She will probably go to Mendota tomorrow. Another commission is in session this afternoon at the county jail, examining William McCarty, the vagabond of Spaulding lake. McCarty is evidently unsound. It is probable that he too will go to Mendota tomorrow.

Several Reasons.

There are several reasons why we are today doing the largest shoe trade done by any house in Rock county. First—We have always insisted on handling none but the very best goods, believing that poor goods are never cheap.

Second—High prices and long profits have long been strangers to us. We are continually handing out superior goods at prices no higher than you are asked to pay for inferior goods.

Third—In all of our advertisements we have held rigidly to facts. Have never endeavored to mislead the people by misrepresentation.

Fourth—We carry the largest and most carefully selected stock, not dealing in job lots and tag ends from "Cheap John" jobbing houses.

Fifth—We are fact-fitting, comfortable giving shoemen. To the above stated facts we attribute our wonderful success. It is very gratifying to us to know that our efforts are appreciated.

## THE WHITE SLAVES HIS SERMON TOPIC.

DR. TALMAGE SCORES OPPRESSORS OF LABOR.

Underpaid Sewing Women a Riot Upon Our Civilization—The Wrath of God Will Surely Fall Upon Their Cruel Employers.

BROOKLYN, June 7.—Rev. T. De Wit Talmage, who is now on his round-the-world journey, has chosen as the subject for to-day: "Martyrs of the Needle," the text being Matthew xix. 24. "It is easier for a camel to go through the eye of a needle."

Whether this "eye of the needle" be the small gate at the side of the big gate at the entrance of the wall of the ancient city, as is generally interpreted, or the eye of a needle such as is now handled in sewing a garment, I do not say. In either case it would be a tight thing for a camel to go through the eye of a needle. But there are whole caravans of fatigues and hardships going through the eye of the sewing woman's needle.

Very long ago the needle was busy. It was considered honorable for women to toil in olden time. Alexander the Great stood in his palace showing garments made by his own mother. The finest tapestries at Bayeux were made by the queen of William the Conqueror. Augustus the emperor would not wear any garments except those that were fashioned by some member of his royal family. So let the toiler everywhere be respected!

The greatest blessing that could have happened to our first parents was being turned out of Eden after they had done wrong. Adam and Eve, in their perfect state, might have got along without work, or only such slight employment as a perfect garden, with no weeds in it, demanded. But, as soon as they had sinned, the best thing for them was to be turned out where they would have to work. We know what a withering thing it is for a man to have nothing to do. Good old Ashbel Green, at four score years, when asked why he kept on working, said, "I do so to keep out of mischief."

We see that a man who has a large amount of money to start with has no chance. Of the thousand prosperous and honorable men that you know nine hundred and ninety-nine had to work vigorously at the beginning.

But I am now to tell you that industry is just as important for a woman's safety and happiness. The most unhappy women in our communities to-day are those who have no engagements to call them up in the morning; who, once having risen and breakfasted, lounge through the dull forenoon in slippers down at the heel and with dishevelled hair, reading the last novel; and who, having dragged through a wretched forenoon and taken their afternoon sleep, and having spent an hour and a half at their toilet, pick up their card-case and go out to make calls; and who pass their evenings waiting for somebody to come in and break up the monotony. Arabella Stuart never was imprisoned in so dark a dungeon as that.

There is no happiness in an idle woman. It may be with hand, it may be with brain, it may be with foot; but work she must, or be wretched forever. The little girls of our families must be started with that idea. The curse of our American society is that our young women are taught that the first, second, third, fourth, fifth, sixth, seventh, tenth, fiftieth, thousandth thing in their life is to get somebody to take care of them. Instead of that, the first lesson should be, how, under God, they may take care of themselves. The simple fact is that a majority of them do have to take care of themselves, and that, too, after having, through the false notions of their parents, wasted the years in which they ought to have learned how successfully to maintain themselves. We now and here declare the inhumanity, cruelty, and outrage of that father and mother, who pass their daughters into womanhood, having given them no facility for earning their livelihood. Madame de Staël said: "It is not these writings that I am proud of, but the fact that I have facility in ten occupations, in any one of which I could make a livelihood."

Have you nothing better than money to leave your children? If you have not, but send your daughters into the world with empty brain and unskilled hand, you are guilty of assassination, homicide, regicide, infanticide. There are women toiling in our cities for \$3 and \$4 per week, who were the daughters of merchant princes. These suffering ones now would be glad to have the crumbs that once fell from their father's table. That worn-out, broken shoe that she wears is the lineal descendant of the \$12 gaiters in which her mother walked and that torn and faded calico had ancestry of magnificent brocade, that swept Broadway clean without any expense to the street commissioners. Though you live in an elegant residence, and fare sumptuously every day, let your daughters feel it is a disgrace to them not to know how to work. I denounce the idea, prevalent in society, that though our young women may embroider slippers, and crochet, and make mats for lamps to stand on, without disgrace, the idea of doing anything for a livelihood is dishonorable. It is a shame for a young woman, belonging to a large family, to be inefficient when the father toils his life away for her support. It is a shame for a daughter to be idle while her mother toils at the wash-tub. It is as honorable to sweep house, make beds, or trim hats, as it is to twist a watch chain.

As far as I can understand, the line of respectability lies between that which is useful and that which is useless. If women do that which is of no value, their work is honorable. If they do practical work, it is dishonorable.

able. That our young women may escape the censure of doing dishonorable work, I shall particularize. You may knit a tidy for the back of an arm-chair, but by no means make the money wherewith to buy the chair. You may, with delicate brush, beautify a mantel ornament, but die rather than earn enough to buy a marble mantel. You may learn artistic music until you can squall Italian, but never sing "Ortonville" or "Old Hundred." Do nothing practical, if you would, in the eyes of refined society, preserve your respectability. I scout these finical notions. I tell you no woman, any more than a man, has a right to occupy a place in this world unless she pays a rent for it.

If we want a place in this world we must earn it. The partridge makes its own nest before he occupies it. The lark, by its morning song, earns its breakfast before it eats it; the Bible gives an intimation that the first duty of an idler is to starve, when it says if he "will not work, neither shall he eat." Idleness ruins the health; and very soon Nature says, "This man has refused to pay his rent; out with him!"

Society is to be reconstructed on the subject of woman's toil. A vast majority of those who would have woman industrious shut her up to a few kinds of work. My judgment in this matter is, that a woman has a right to do anything she can do well. There should be no department of merchandise, mechanism, art or science barred against her. If Miss Hosmer has genius for sculpture, give her a chisel. If Rosa Bonheur has a fondness for delineating animals, let her make "The Horse Fair." If Miss Mitchell will study astronomy, let her mount the starry ladder. If Lydia will be a merchant, let her sell purple. If Lucretia Mott will preach the gospel, let her thrill with her womanly eloquence the Quaker meeting house.

It is said if woman is given such opportunities she will occupy places that might be taken by men. I say if she have more skill and adaptiveness for any position than a man has let her have it! She has as much right to her bread, to her apparel, and to her home as men have.

But it is said that her nature is so delicate that she is unfitted for exhausting toil. I ask in the name of all past history what toil on earth is more severe, exhausting and tremendous than that of the needle to which for ages she has been subjected? The battering-ram, the sword, the carbine, the battle-axe have made no such havoc as the needle. I would that these living sepulchres in which women have for ages been buried might be opened, and that some resurrection trumpet might bring up these living corpses to the fresh air and sunlight.

I go still further, and say that women should have equal compensation with men. By what principle of justice is it that women in many of our cities get only two-thirds as much pay as men, and in many cases only half? Here is a gigantic injustice—that for work equally well, if not better done, woman receives far less compensation than man. Start with the national government: for a long while women clerks in Washington got \$900 for doing that for which men received \$1,800.

To thousands of young women in our cities to-day there is only this alternative: starvation or dishonor. Many of the largest mercantile establishments of our cities are accessory to these abominations; and from their large establishments there are scores of souls being pitched off into death; and their employers know it.

Is there a God? Will there be a judgment? I tell you, if God rises up to redress woman's wrongs, many of our large establishments will be swallowed up quicker than a South American earthquake ever took down a city. God will catch these oppressors between the two mill stones of his wrath, and grind them to powder!

I hear from all this land the wail of womanhood. Man has nothing to answer to that wail but flatteries. He says she is an angel. She is not. She knows she is not. She is a human being, who gets hungry when she has food, and cold when she has no food. Give her no more flatteries; give her justice!

There are about 50,000 sewing girls in New York and Brooklyn. Across the darkness of this night I hear their death groan. It is not such a cry as comes from those who are suddenly hurled out of life, but a slow, grinding, horrible wasting away. Gather them before you and look into their faces, pinched, ghastly and hunger-struck! Look at their fingers, needle-pricked and blood-tipped! See that premature stoop in the shoulders. Hear that dry, hacking, merciless cough!

At a large meeting of these women held in a hall in Philadelphia, grand speeches were delivered, but a needle woman took the stand, threw aside her faded shawl, and with her shriveled arm, hurled a very thunderbolt of eloquence, speaking out the horrors of her own experience.

Stand at the corner of a street in New York in the very early morning, as the women go to their work. Many of them had no breakfast except the crumbs that were left over from the night before, or a crust they chew on their way through the street. Here they come! The working girls of the city! These engaged in bead-work, these in flower-making, in millinery, enamelling, cigar-making, book-binding, labelling, feather-picking, print-coloring, paper-box making, but most overworked of all, and least compensated, the sewing-women. Why do they not take the city cars on their way up? They can not afford the five cents! If, concluding to deny herself something else, she gets into the car, give her a seat! You want to see how Latimer and Ridley appeared in the fire: look at that woman and behold a more horrible martyrdom, a hotter fire, a more agonizing death!

One Sabbath night, in the vestibule of my church, after service a woman fell in convulsions. The doctor said she needed medicine not so much as something to eat. As she began to revive, in her delirium, she said, gaspingly: "Eight cents! Eight cents! Eight cents! I wish I could get it done! I wish I could get some sleep, but I must get it done! Eight cents! Eight cents!" We found afterward that she was making garments at 8 cents apiece, and that she could make but three of them in a day. Hear it! Three times eight are twenty-four! Hear it, men and women who have comfortable homes!

Some of the worst villains of the city are the employers of these women. They beat them down to the last penny, and try to cheat them out of that. The woman must deposit a dollar or two before she gets the garments to work on. When the work is done it is sharply inspected, the most insignificant flaws picked out, and the wages refused, and sometimes the dollar deposited not given back. The Women's Protective Union reports a case where one of these poor souls, finding a place where she could get more wages, resolved to change employers, and went to get her pay for work done. The employer says: "I hear you are going to leave me?"—"Yes," she said, "and I have come to get what you owe me." He made no answer. She said: "Are you not going to pay me?"—"Yes," he said, "I will pay you;" and he kicked her down the stairs.

How are these evils to be eradicated? What have you to answer, you who sell coats, and have shoes made, and contract for the southern and western markets? What help is there, what panacea, what redemption? Some say: "Give women the ballot." What effect such ballot might have on other questions I am not here to discuss; but what would be the effect of female suffrage upon woman's wages? I do not believe that woman will ever get justice by woman's ballot.

The dying actress whose life had been vicious said: "The scene closes. Draw the curtain." Generally the tragedy comes first, and the farce afterward, but in her life it was first the farce of a useless life, and then the tragedy of a wretched eternity.

Compare the life and death of such a one with that of some Christian aunt that was once a blessing to your household. I do not know that she was ever offered a hand in marriage. She lived single, that untrammelled she might be somebody's blessing. Whenever the sick were to be visited, or the poor to be provided with bread, she went with a blessing. She could pray, or sing "Rock of Ages," for any sick pauper who asked her. As she got older, there were days when she was a little sharp, but for the most part Auntie was a sunbeam—just the one for Christmas eve. She knew better than any one else how to fix things. Her every prayer, as God heard it, was full of everybody who had trouble. The brightest things in all the house dropped from her fingers. She had peculiar notions, but the grandest notion she ever had was to make you happy. She dressed well—Auntie always dressed well; but her highest adornment was that of a meek and quiet spirit, which, in the sight of God, is of great price. When she died you all gathered lovingly about her, and as you carried her out to rest the Sunday school class almost covered the coffin with japonicas; and the poor people stood at the end of the alley, with their aprons to their eyes, sobbing bitterly; and the man of the world said, with Solomon, "Her price was above rubies;" and Jesus, as unto the maiden in Judea, commanded: "I say unto thee, arise!"

Our elegant line of negligee shirts You should see them, at 50 cents and upwards. Some dealers ask 75 cents for what we sell at half a dollar.

**TOO MUCH WIND**  
Is being wasted by our competitors, who lead in everything (Fairy tales not excepted) as to the immense amount of business that they are doing—on paper mostly—by selling their wares less than cost.

Merchandise that must be sold for less than the cost to manufacture must be exceeding poor or of such an antique date that any price is gain.

We do not have that kind of goods in our place. We are making up many suits—bury all of the time and making some profit—the reason is that our customers get honest value for their money—any who have ever dealt with us can verify the above.

**IN HATS**  
We always were in advance on new things—selling so many keeps our stock bright and clean. If we would let the old timers accumulate we would gladly take 50 cents on the dollar for them. Our new straws are in and are charming. Some beauties at 50 cents. One price to all and everything marked in plain English figures. Yours, Etc.

## That Shaw

Will become the property of some popular young lady within the next four weeks.

We do not dare to predict who will get it, but a "dark horse" is talked of and the ballots will come in with a rush within the next three weeks, therefore those interested want to redouble their energies so that their particular favorite will not be behind in this popular contest.

**A Word About the Shaw Piano**

The first pianos made by the company were placed on the market less than five years ago. Instantly the trade recognized their merits and put in bids for territory until at this time these instruments can be seen almost everywhere. To be able to build such a good business in so short a time there must be great policy behind the house.

The policy of the Shaw Piano Company, is first to build a good instrument, second, to advertise it largely and artistically. The first part of the policy, to build a good instrument, is amply testified to by the favor they have met with both from dealer and artist.

The Shaw Piano is strictly a high grade first-class instrument, one that the purchasing public can have every confidence in. Messrs. S. C. Burnham & Co., of our city have for years been representing other first-class pianos but have been won by the construction, tone and quality of this new aspirant for honors so that today they are bending all their energies in favor of the Matchless Shaw, as it is termed. With no remorse of conscience they claim it is the finest musical instrument in the piano line they have ever represented.

Judging from the above account of this wonderful piano it is any wonder that the contest now going on is attracting universal attention. Rally round your favorite lady, boys. See that she becomes the happy possessor of a SHAW.
